AHMED MOHAMMED MOHSEN MORAD

Senior Project Controls Engineer | Senior Cost Control Engineer

PMP | PMI-SP | ERP Oracle Professional | Saudi Council of Engineers Accredited |+966 56 789 0169 |
Riyadh, KSA (Transferable Iqama) |ahmedmorad1095@gmail.com | linkedin.com/in/ahmedmohsenmorad/

PROFESSIONAL SUMMARY

Project Controls Engineer with 8+ years in budgeting, cost control, and forecasting across Saudi Arabia and Egypt. Controlled costs on portfolios of SAR 900M+ and EGP 2B+ at SAJCO, Nesma Infrastructure & Technology, and Elsewedy Electric, from operational budget setup and change-order control to subcontractor invoice review in EPC, Infrastructure, Power Transmission, Substations, and Utilities Projects.
Built ERP-integrated Power BI (DAX) dashboards that replaced manual reporting and flagged budget-vs-actual variances early. PMP & PMI-SP certified; CCP exam in progress**.**

CORE SKILLS

Cost Control & Budgeting: Operational Budget, Budget vs Actual, Cost Forecasting, Cost-to-Complete, Variance Analysis, Cash Flow, CAPEX/OPEX, Cost Baseline.

Commercial Control: Change/Variation Orders, Subcontractor Invoices, Commitments (PR/PO), Petty Cash, Cost Estimation, Feasibility Studies, FIDIC, Claims

Project Controls: Earned Value Management (EVM), WBS, Primavera P6, MS Project, Monthly Cost Reporting, Portfolio Reporting, Risk Management

Analytics & Automation: AI, GitHub, HTML, Power BI, DAX, Power Query, Advanced Excel, VBA, ERP Integration, Data Modeling.

PROFESSIONAL EXPERIENCE

Senior Project Controls Engineer Dec 2025 – Present

Shibh Al Jazira Contracting (SAJCO) | Riyadh, KSA

Reports to the Project Controls Director; acts as Assistant Project Controls Director for portfolio-level cost control.

- Reduced monthly subcontractor cost reporting effort by consolidating 70+ decentralized project workbooks into one Power BI model with custom DAX measures, giving top management real-time subcontractor cost performance.
- Reduced unbilled revenue across the portfolio by developing an ERP-integrated billing and invoicing dashboard that shows invoiced vs. unbilled amounts to management.
- Delivered monthly cost performance reports, budgets, forecasts, and cash flow projections for a portfolio of multi-hundred-million SAR, aligning **8** area planning and cost control managers to one reporting standard.
- Improved revenue visibility across **71** projects by building an ERP-connected Revenue Performance Dashboard that ranks project performance and compares monthly trends.

Senior Budgeting & Cost Control Engineer Dec 2024 – Nov 2025

Nesma Infrastructure & Technology | Egypt (Back Office, HQ)

Reported to the PMO Budget and Cost Control Manager.

- Reduced labor cost overruns by building a companywide manpower dashboard (MenaME data, DAX) that flags budget-vs-actual variances and position-level overages.
- Cut monthly reporting cycle time and improved data reliability for executives by replacing manual reports with ERP-linked Power BI dashboards for a power transmission portfolio.
- Lowered portfolio cost variance and improved project margin by analyzing performance trends with Project Managers and acting on early warning signals.

Senior Cost Control Engineer Jan 2022 – Nov 2024

Elsewedy Electric | Egypt

Reported to the Cost Control Manager.

- Contained cost overruns on projects worth EGP 1B–2B+ by controlling approvals end to end (PRs, POs, petty cash, change orders) and reviewing subcontractor invoices and variations against the operational budget.
- Eliminated manual data extraction by building the company's first automated consolidated ERP cost report as a single source of truth.
- Supported the investment decision for a new Micro Tunneling Department with a feasibility study and rent-vs-buy analysis for the Herrenknecht AVN2500AB machine, covering depreciation, productivity, idle vs. operating costs, and Incoterms.
- Awarded Champion of the Year 2022–2023 for top performance.

Planning & Cost Control Engineer Sep 2019 – Jan 2022

Tabarak for Engineering & Construction | Egypt

- Delivered unified cost reports directly to the Board Chairman for an EGP 300M+ portfolio, with no ERP in place, by consolidating Finance, HR, Equipment, and Site data into one reporting process.
- Flagged cost deviations early across direct and indirect costs on **+20** projects by tracking full expenditures against approved budgets and applying EVM.

Site Planning Engineer Apr 2018 – Aug 2019

Center of Planning & Architectural Studies | Egypt

- Developed the Project schedule and delivered progress reports, trend charts, and schedule analysis to the Bank Committee for the USD 2M AFREXIMBANK HQ enhancement project.

SELECTED REPORTING & AUTOMATION TOOLS **"Links below use anonymized sample data modeled on a real reporting workflow."**

- Revenue & IPC Tracking Tool| github.com/ahmedmorad137/revenue

- Transform the project's raw data, including BOQ details, planned and achieved quantities by month, and variation orders for BOQ line items into a page using an appropriate tool (HTML). Maintain a permanent link so all users can access the dashboard, with updates published weekly or monthly as new figures become available.
- Cut monthly revenue and IPC reporting time by building a model that tracks invoiced vs. unbilled amounts, certification status, and monthly revenue trends.

- SC Performance Tracking Tool| github.com/ahmedmorad137/Sc

- Developed an interactive Subcontractor Performance tool (HTML/JavaScript) that tracks contract value, invoicing progress, revenue efficiency, and over-invoicing alerts across projects and areas, demonstrating cost-control and performance-appraisal KPIs for subcontract management

SELECTED PROJECTS

- **Rumah BSP-9077 A & B** | SAR 900M | Nesma Infrastructure & Technology
- **Bisha 380kV PV Power Plant** | SAR 645M | Nesma Infrastructure & Technology
- **Refurbishment of 132kV Qunfudah CPS Substation** | SAR 235M | Nesma Infrastructure & Technology
- **Abu Hadriyah Substation with OHTL Rerouting** | SAR 169M | Nesma Infrastructure & Technology
- **Nawaryah Substation and Makkah North BSP** | SAR 89M | Nesma Infrastructure & Technology
- **Mostaqbal Masr Transmission Pipelines** | EGP 2.0B | Elsewedy Electric
- **EDCO Box Culvert & Micro Tunneling Crossings** | EGP 1.45B | Elsewedy Electric
- **USAID Dronka Wastewater System** | USD 8.8M | Tabarak
- **New Giza Infrastructure Networks in NH07 (Irrigation, water, and wastewater)** | EGP 100.64M | Tabarak

CERTIFICATIONS

- Project Management Professional (PMP) | PMI
- AACE Certified Cost Professional (CCP): in progress, exam expected **2027**
- Cost Accounting | Technical University of Munich (Coursera)
- Construction Cost Estimating & Control | Columbia University (Coursera)
- PMI Scheduling Professional (PMI-SP) | PMI
- Primavera P6 Professional | Oracle
- Oracle Cloud SCM Certified Implementation Professional
- Business Communications | HP life
